TO: Parents/Guardians and Students

FROM: Mr. Darren Sirianni, Principal East Dubuque High School

RE: Schedule Changes

This course description book has been written with the intent of assisting you in making informed choices regarding your academic course selections. If you have any questions or require additional information, please feel free to contact the guidance counselor, appropriate teacher, or me. Although every effort will be made to accommodate your class requests, courses with a registration count of fewer than twelve may be dropped for the school year at the discretion of the administration.

We ask that you take great care and deliberation in completing your schedule requests. Creating a master schedule is a time-consuming process. Based upon students' requests for courses, consideration is given to:

- The classes that we offer;
- The number of sections of each class;
- The balancing of students' schedules;
- The ordering of supplies;
- Teaching assignments.

For these reasons and others, students are responsible for the classes they request.

Schedule changes may only be requested for the following reasons:

1. To correct a computer or clerical error.
2. To make an ability level change as requested by a teacher.
3. Changes needed as a result of completion or failure of summer school courses.
4. Changes needed by seniors to satisfy graduation requirements.
5. Changes needed by seniors to satisfy college entrance requirements.

Students who choose to drop a class after the beginning of the semester for any reason other than those listed above will receive an $F$ for the semester in that course. Students taking a year-long class may drop that class toward the end of the $1^{\text {st }}$ semester and before the beginning of the $2^{\text {nd }}$ semester only with the written consent of both the teacher and a parent/guardian.

Again, we ask that you take great care and deliberation in completing your schedule requests. If you have any questions after reviewing your course schedule, please sign up in the office to see the guidance counselor.

## REQUIREMENTS FOR GRADUATION

| English <br> Credits | Math <br> Credits | Science <br> Credits | Social <br> Studies <br> Credits | Physical <br> Education <br> Credits | Elective <br> Credits <br> (minimum) | Total Credits <br> (minimum) | Graduation <br> Service <br> Hours |

## REQUIRED COURSES BY SUBJECT

## English (4-1/2 years)

1 year English 9, English 9 Concepts, or English 9 Honors
1 year English 10, English 10 Concepts, or English 10 Honors
1 year English 11, English 11 Concepts, or English 11 Honors
1 year English 12, English 12 Concepts, or AP Literature and Composition
1 semester Speech (taken during the junior year)

## Math (3 years)

1 year must be Algebra and 1 year must be a course that includes geometry content
Courses include: Individualized Math, Algebra A, Algebra 1, Algebra B, Geometry,
Geometry Concepts, Algebra 2, Discrete Math, Pre-Calculus, and AP Calculus AB

## Science (2-1/2 years)

1 year Physical Science or Physical Science Concepts
1 semester Health (taken during the freshman or sophomore year)
1 year Biology or Biology Honors

## Social Studies (3 years)

1 year World History or World History Concepts
1 year United States History or United States History Concepts
1 semester Government (taken during the senior year)
1 semester Consumer Education* (taken during the senior year)

* Successful completion of Introduction to Business fulfills the state consumer education requirement.

## Physical Education (6 semesters)

1 semester during the freshmen year; Health/Driver's Education during the other semester 1 semester during the sophomore year; Driver's Education/Health during the other semester 2 semesters during both the junior and senior years

## Elective Credits

At least 1 year chosen from any of the following: art, music, foreign language, vocational education

## Graduation Service

10 hours per school year

NOTE: Except for individualized classes, any course obtaining a registration count of fewer than twelve students may be dropped for the school year at the discretion of the administration.

## OVERVIEW OF GRADUATION REQUIREMENTS

Total credits needed for graduation: 22
(A student will receive $1 / 2$ credit for earning a passing grade in each semester course.)

Graduation service hours needed for graduation: 40

2D: Studio Art:

| Course Number: | 10020 |
| :--- | :--- |
| Length/Credits: | One semester/ $1 / 2$ credit |
| Prerequisite: | None |
| Course Fee: | $\$ 10.00$ |

State Course Title: Creative Art—Painting
State Course Code: 05157A000

This course is designed to provide students with learning opportunities two dimensional art (flat art). Classwork may include painting, drawing, quilling, collage and printmaking using both traditional and alternative methods. This survey studio course will touch on the elements of art and principles of design, explain the importance of an artist sketchbook, and demonstrate various techniques for art making while focusing heavily on in class art production and participation.
This course may be taken one or both semester yearly throughout your high school career as the projects constantly change.

## 3D: Studio Art:

Course Number: $10030 \quad$ State Course Title: Creative Art—Sculpture
Length/Credits: One semester/ $1 / 2$ credit State Course Code: 05154A000
Prerequisite: None
Course Fee: $\quad \$ 10.00$
This course is designed to provide students with learning opportunities in three dimensional art (sculptural art). Classwork may include hand sculpting, plaster form, assemblage, wire form, collaborative installation and alternative processes. This studio course will explore various artists who influence our design aesthetic, and spark a conversation that challenges what materials can be used as "art" while focusing heavily on in class art production, collaboration and participation.
This course may be taken one or both semester yearly throughout your high school career as the projects constantly change.

## Textiles:

Course Number:
State Course Title: Fibers and Textile Design
Length/Credits: One semester/ $1 / 2$ credit
State Course Code: 05164A000
Prerequisite: Successful completion of Art fundamentals in 3D
Course Fee: $\quad \$ 10.00$
This course is designed to provide students with learning opportunities in textiles (fiber, fabric, yarn and sewn art). Classwork may include knitting, shibori tie dye, wax batik, hand embroidery and sewn yarn portraits. This studio course will introduce artists who use fiber in their art, explain various fiber art techniques while focusing heavily on in class art production and participation.
This course is offered once a year. It may be taken EVERY year.

## Independent Study in Art

Course Number: State Course Title: Art Portfolio
Length/Credits: One Semester/ $1 / 2$ credit State Course Code: 05170A000
Prerequisite: Previous art classes/ Teacher approval/ Senior
Course Fee: $\quad \$ 10.00$
This course is designed to provide self motivated artists with an opportunity to create their own curriculum. Students selected for this course will meet with the art teacher at the start of the semester to outline a project list. Students will then work at their own pace to complete projects independently. This course is recommended for students seriously interested in creating art, attending an art school after graduation and/or pursuing a career in the arts.
This course is only available to Seniors. Selection is at the discretion of the teacher.

## Yearbook

Course Number: $500801 \quad$ State Course Title: Publication Production Length/Credits: Full Year/1 credit State Course Code: 11104A000
Prerequisite: Available to Sophomores, Juniors, and Seniors. Instructor approval required.
Yearbook will cover the entire process of planning and producing a hardcover yearbook for the High School. Students will be actively involved in taking photographs, conducting interviews, making decisions regarding the style and content of the yearbook as well as working within an online software platform to produce the final product. Students need to be self motivated and organized. Students will be required to help cover photography at selected activities during the course of the school year.
This course is offered every year. It may be taken by Sophomores, Juniors, and Seniors with Instructor Approval.

## BUSINESS EDUCATION

This chart shows the sequence of courses and prerequisites.
$\underline{\text { Introduction to Business is a prerequisite for all courses except }}$
Consumer Economics and MS Office Professional/Office Administrative Practices.

## All courses in the Business Education curriculum meet and exceed all content and competency Standards established by the National Business Education Association.

The Business Internship requires senior status and the completion of Introduction to Business plus any two or more business courses with a final course grade of " $B$ " or higher prior to enrollment.

## Administrative Practices

Course Number: 900101
Length/Credits: One semester/ $1 / 2$ credit
Prerequisite: None
Course Fee: $\quad \$ 10.00$
Students enrolling in this course should have a keyboarding skill level of 35 WPM with less than $5 \%$ errors to fully benefit from this course.

In this course students acquire a knowledge of and practical experience in the correct and efficient use of widely used business software programs for general business office applications with a special concentration on the Microsoft Office Professional Suite of programs including MS Word, Access, Power Point, and Excel and derivatives. Students will learn to correctly format a wide variety of business documents, prepare data displays, visuals and charts, and construct spreadsheets utilizing common business oriented financial and accounting systems. Also included in this course is an introduction to generally accepted office practices and procedures, use of common business office equipment, effective and secure use of internet and intranet systems, business e-mail and telecommunications, general office administration, and careers in office administration and management.

## Introduction to Business

Course Number: 900201
Length/Credits: One semester/ $1 / 2$ credit
Prerequisite: None
Course Fee: $\quad \$ 10.00$
This course is designed for participation by freshman, sophomores, and juniors. Introduction to Business is intended to serve as the entry-level prerequisite course for all other business education courses. Seniors who elect to enroll in this course will be required to complete the Consumer Economics Course Project in addition to all other course requirements. Refer to the Consumer Economics course description for additional information.

This course provides an overview of the functions of business in a market economy and the effects of mixed and centrally managed economies on global economic environment. The student is introduced to the basic business operations and principles involved in product/service development, production, marketing, finance and accounting, human resource management, technology, customer service, quality control and improvement. Additional topics include banking, checking/debit card account management and reconciliation, entrepreneurship and small business management, business plans, corporate strategic planning, economic systems and economic activity, business structure and organization, production and operations management, risk management, money, banking, and financial management, credit, savings, and investments, business ethics, and the social responsibility and role of business in American life. This course is designed to provide a comprehensive basic foundation for students who are planning to enter a business occupation after graduation, and to provide a college-bound student with a competitive advantage in college level study in business.

In addition, each student is expected to participate in the Return-On-Investment Project as a special learning opportunity. Students will be given a simulated $\$ 50,000$ to invest in the stock market and other approved investment options discussed in class. Using research techniques, stock knowledge, and guidance provided in the course the student will carefully research, analyze, and evaluate several investment options, and fully invest the $\$ 50,000$. The initial investment will be recorded as a Portfolio using MS Excel. The student may change the investment portfolio by selling and buying using the standard $2 \%$ brokerage fee. Each buy and sell action must be fully documented with dated copies of the investment details. At the end of the course, the student will prepare an Investment Portfolio Simulated Liquidation Report accounting for all fees and capital gains/losses in MS Excel.
External Resources
This course incorporates instructional media made available to the instructor through participation with the Wharton High School of the University of Pennsylvania, Wharton School of Business and the Kelly School of Business at Indiana University, and other leading business education sources. Additional media presentations by well-known business authorities are used to supplement class instruction. These media resources include offerings from MS NBC, Fox Business, Bloomberg, Wall Street Journal, Forbes, and selected similar sources.

## Waiver of the Illinois Consumer Education Graduation Requirement

The content of this course meets the Illinois Consumer Education requirement for graduation and meets the Illinois Financial Literacy curriculum standard and Public Act 99-284. Students completing Introduction to Business with a final course grade of "B" ( $85 \%$ ) or higher will have met the Consumer Education graduation requirement and are not required to enroll in the Consumer Economics course. Students who pass Introduction to Business with a final course grade below "B" ( $85 \%$ ) receive credit for the course but must also complete the Consumer Economics course in order to meet graduation requirements.

## Marketing

Course Number: 900203 State Course Title: Marketing-Comprehensive (CTE Course)
Length/Credits: One semester/ $1 / 2$ credit State Course Code: 12152A000

Prerequisite: $\quad$ Successful completion of Introduction to Business and any additional business courses with a final course grade of a "B" (85\%) or higher
Course Fee: $\quad \$ 10.00$
This course provides an introduction to the purposes, approaches, and strategies involved in the successful promotion, marketing, and sale of products and services to the public and to special targeted client and customer groups. Major topics include steps in starting a new business, selecting locations, budgeting, business plan development, market research, competitor identification and analysis, product/service pricing, advertising, risk management, product and service quality and delivery, SCM, logistics, TQM, BPR, and competitive advantage. As students progress through the course they examine real-life marketing situations and develop a marketing plan to achieve specified strategic market objectives. This course is designed to provide a basic functional understanding of business marketing for students who are planning to enter a business occupation after graduation, and provide a college-bound student with a competitive advantage in college level study in business and marketing.

This course requires competency in basic math including percent, ratios, and basic algebra for use in learning the application of marketing math formulas, statistical process control, costing, price/demand elasticity, and breakeven analysis.

In addition to assigned study and class activities, this course requires the viewing and reporting on two television business news programs available on MSNBC,CNBC, Fox Business, or Bloomberg. The student will present a business style briefing identifying key learnings from the programs and responding to questions and comments from class members. This is a graded assignment.

## Return on Investment (ROE) Portfolio Management

Students who had participated in the ROE Investment activity during the prerequisite Introduction to Business course may continue their investment management activities during this course and may earn additional final exam points based on the rate of Return-OnInvestment achieved during their participation in this course. To earn this additional credit the student must prepare a welldocumented Investment Portfolio Update Report in MS Excel based on a simulated liquidation of all investments in the portfolio and the resulting pre-tax and post-tax capital gain or loss.

## Business Law

Course Number:
Length/Credits
Prerequisite:
900202
One semester/ $1 / 2$ credit
State Course Title: Business Law (CTE Course)

Completion of Introduction to Business and any additional business courses with a final course grade of " $B(85 \%)$ or higher.

## Course Fee: $\quad \$ 10.00$

This course is an introduction to the basics of commercial and corporate law and the legal aspects of operating a business. Students will examine law in the areas of sales, technology, finance, insurance, bankruptcy, employment and labor relations, contract law, environmental law, the uniform commercial code, business ethics, sales law, property law, ownership and transfers, insurance law, leases, agency law, employment law, unions, corporation law, not-for-profits, borrowing, bankruptcy, commercial paper, negotiability, discharge, secured and unsecured debt. This course is recommended for students considering a career in law, those planning a career as an entrepreneur or earn a college degree in business.
Completion of Introduction to Business and any additional business courses
grade of "B (85\%) or higher.

Course Fee: $\quad \$ 10.00$
This course introduces a business student to the functions of managing the operations and employees in a business. This course provides students with a basic understanding of the foundational activities, concepts, and principles involved in planning, organizing, directing, evaluating, and controlling functions within a business. In addition, the students learn basic management processes and concepts involved in determining corporate strategy, strategic management, business structure, developing and sustaining business culture, staffing, finance, and the interconnections among industry, government, and the global economy.

Included in this course are practical simulations in flow-process charting and process control, labor cost/time scheduling, costbenefit analysis, value-added analysis, and TQM implementation.
This course is recommended for students planning to earn a college degree in business and/or pursue careers as an entrepreneur, not-profit- organization management, or general supervision.

## Human Resource Management

Course Number: 900205 State Course Title: Human Resource Management
Length/Credits: One Semester/ $1 / 2$ credit State Course Code: 2058A000
Prerequisites: Completion of Introduction to Business plus two additional business courses with a final course grade in each of
of "B (85\%) " or higher, and junior or senior status.
Course Fee:
\$10.00
This course presents an advanced business education student with a comprehensive foundation in the contemporary approaches to strategic human resource management and personnel administration. The central focus of the course is on the concept of human capital management and its implications for the supervision and leadership of a workforce, equal employment opportunity, affirmative action, and labor relations. Topics introduced in this course include basic principles of human relations in the workplace, job analysis and workforce planning, performance management and appraisal, compensation, discipline, promotion, recognition, reduction-inforce, termination for cause, employee safety and health, benefits, employment law, labor-management relations, community relations and responsibility. This course is recommended for college bound business students as well as students having a career goal in supervision or business ownership.

## Professional Accounting

Course Number: 900401
State Course Title: Accounting
Length/Credits: Two Semesters / 1 credit State Course Code: 12104A001
Prerequisite: $\quad$ Completion of Introduction to Business and at least one additional business course with final course grades of
"B (85\%)" or higher. This course requires attention to detail and a high level of competency in basic math and abstract reasoning.
Course Fee:
\$20.00
Accounting is a pre-professional course of study designed to prepare a college-bound student with a comprehensive foundation for successful college level study in accounting and financial management. This program may also prepare a non-college bound student with a basic competency in professional accounting necessary to support a small business ownership goal or qualify for an entry level position as an accounting technician, accounting assistant, or related administrative/clerical support position in an accounting office. This one-year program consists of two semesters of study as follows:

First Semester (Accounting I)
The first semester of study introduces the student to the fundamental principles, concepts, and procedures used in professional accounting and the GAAP. The module content includes the exposure to the full accounting cycle, basic payroll, basic taxes, debts, depreciation, ledger and journal techniques, and periodic adjustments applied to sole proprietorships, partnerships, and limited liability companies. Students learn how to accomplish basic accounting practices and techniques using manual journals, ledgers, registers, working papers, trial balances, end-of-period reports, profit and loss statements, balance sheets, owner's equity statements and related reports for simple service, retailing, and related businesses. This module also provides an introduction to automated accounting systems using generic automated accounting simulations. A student must complete the first semester with a final grade of " $85 \%$ "in order to continue studies in the second semester. A student who does not earn the prerequisite "B" needed to advance to the second semester but earns a passing grade will exit the program with $1 / 2$ credit in accounting.

Second Semester (Accounting II)
Pre-requisite: Completion of the first semester final grade of "B (85\%)" or higher.
The content of the second semester is significantly more complex than the first semester and uses the knowledge and skills gained in the first semester to develop a deeper knowledge and application skills in professional accounting with emphasis on more complex structures. The student learns to apply previously learned principles to more types of business organizations including multi-member partnerships, Sub-Chapter S entities, LLCs, PCs, closed and public corporations, not-for-profits, subsidiaries, holding companies etc. The students are introduced to specialized aspects of corporate accounting such as inventory accounting, cost accounting, tax accounting,
complex payroll accounting, stock issues and dividends, 401 Ks and wealth-building programs, basic internal controls and auditing. Students are exposed to simulated automated accounting systems and have an opportunity to experience selected processes used in Peachtree/Sage50, QuickBooks, Excel, and Excel-based enterprise software. A student who does not earn the prerequisite "B" in order to enroll in Advanced Accounting but earns a passing grade will exit the program with $1 / 2$ credit in accounting for the second seme

## Advanced Professional Accounting (Accounting III)

State Course Title:Accounting
Advanced Accounting
State Course Code: 12104A002
CourseNumber: 900402
Length/Credits: One Semester/ $1 / 2$ credit
Prerequisite: Completion of Accounting I (Introductory) and Accounting II (Intermediate) with a final course grade of "B (85\%)" or higher
Course Fee: 10.00
This is an intensive course designed for students who have been very successful in the Accounting I and II and are interested in advancing their knowledge and proficiency in professional accounting as preparation for college accounting. A student completing Advanced Accounting may qualify for entry into an accounting position in a small business or a corporate/governmental internship in accounting. The content of Advanced Accounting is built on the concepts and understandings acquired in the Professional Accounting and includes skill areas as: financial reporting and accounts structure for a departmentalized organization; inventory management and valuation; uncollectable accounts and write-offs; plant assets, depreciation; prepaid and accrued expenses; accrued revenue earned and unearned; notes receivable; corporate accounting structure; preferred stock, common stock, stock splits, dividend and treasury stock; bond issues, redemptions, and conversions; budgetary planning and control; cost-volume-profit analysis; job order costing, overhead, D/I costs, and standard costs variance allowances; differential analysis; and internal management controls.
Additionally this offering may include an introduction to Auditing and Forensic Accounting. Students gain experience in using simulated and actual automated accounting systems to include selected processes used in Sage50, QuickBooks, Excel, and Excel-based enterprise accounting software.

## Business Internship

Course Number: 900601
State Course Title: Business and Marketing - Workplace Experience
Length/Credits: One semester $/ 1 / 2$ credit
State Course Code: 12998A000
(This course requires a minimum 30 minutes-per-week contact hours of instruction and 10 hours-per-week of OJT)
Prerequisite: Senior status (juniors with administrative approval) and the completion of three or more business courses each with a final course grade of "B (85\%)" or higher.
Other: Contact hours of instruction and OJT are performed outside of the regular school day class schedule.
The course is a special developmental program for students interested in a business career to earn credit for successful on-the-job learning as a part-time employee or unpaid intern in a business-oriented enterprise. This activity requires the student to independently search for and obtain a paid or unpaid position in industry, commerce, or agri-business in which the student will be required to spend a minimum of 10 hours per week. An individual development plan (IDP) is prepared jointly by the student and the employer with guidance from the Business Education instructor. The IDP must be presented and approved by the Business Education instructor prior to the start of the semester. The IDP must (1) outline duties, responsibilities, and the work schedule of the position, (2) describe the on-the-job learning activities in which the student will participate, and (3) specify the work performance objectives that the student is to achieve. In service instruction, guidance, and progress assessment is provided through weekly meetings with the Business Instructor. The student's on-the job learning and work performance is evaluated by the employer at the end of each $41 / 2$ week period using an EDHS-provided evaluation form. The student's final course grade will be determined by the business instructor based on the employer's periodic evaluation and the instructor's assessment of the student's learning achievements.

## Consumer Economics

Course Number: 900801
Length/Credits: One semester/ $1 / 2$ credit

## State Course Title: Consumer Economics/Personal Finance

 State Course Code: 22210A000Prerequisite: Senior status (juniors with administrative approval)
This is a required course for graduation in the State of Illinois for those students who have not qualified for an exemption through high level achievement B ( $85 \%$ ) in the Introduction to Business course (ITB),

This course covers the basic information an adult should have to be an intelligent and informed consumer. The course includes a review of consumer-oriented business math and the use of specialized websites to compute interest rates, payments, amortization, and compounding. Credit card usage, identity theft, investing, banking including checking and savings accounts, taxation, insurance, buying a car, understanding the stock market, and obtaining a home or apartment are included in the course. Full attendance, productive participation, and a grade of no lower than $70 \%$ on each of six Financial Literacy Exams, and an average grade no lower than $70 \%$ for all Chapter Tests is required for graduation eligibility.

## CRIMINAL JUSTICE

## Introduction to Criminal Justice

State Course Title: Law Enforcement
Course Number: State Course Code: 15051A003
Length/Credits: One Semester/ $1 / 2$ credit Prerequisite: Open to Juniors or Seniors
"Have you ever wondered why the police officer touches the trunk of a car when they pull it over?" "Where did the term COP come from?" This course will answer these questions and more. It is designed to provide the student with a general overview of criminal justice in the United States through its historical and philosophical development. It answers the question, "Why do the police do what they do?". Amongst other sections of the course, there is a discussion on career options in criminal justice as well as a discussion on the future of Criminal Justice. This survey and analysis reveals the integrated elements of the larger system.

Introduction to Corrections
State Course Title: Corrections
Course Number:
State Course Code: 15052A001
Length/Credits: One Semester/ $1 / 2$ credit
CTE Course
This course is designed to provide the student with an overview of the historical development of the correctional system in the United States. This survey and analysis reveals the history, evolution, and philosophy of punishment and treatment leading to correctional practices in both institutional and non-institutional environments. Relevant matters of constitutional law will also be covered. We discuss career opportunities throughout the book. We take a deep dive into some of the worst prisons in the world and answer the question: "What country locks up more people than all others?"

## Juvenile Delinquency

State Course Title: Law Enforcement I
Course Number:
State Course Code: 15051A003
Length/Credits: One Semester/ $1 / 2$ credit
CTE Course
Prerequisite: Open to Juniors or Seniors
This course is designed to inform students on the history of juvenile justice and law. "Can a kid be a BAD kid?" It goes into some of the major causes of juvenile delinquency and how juveniles were treated throughout history. We will discuss careers in juvenile justice. It dives into the differences between criminal law (adult) vs. juvenile law. We will take a close look at the school to prison pipeline compared to restorative justice practices. And we examine how Adverse Childhood Experiences may effect delinquency.

## Criminology

State Course Title: Criminology
Course Number:
State Course Code: 15053A001
Length/Credits: One Semester/ $1 / 2$ credit
Prerequisite: Open to Juniors or Seniors
Criminology courses provide students an overview of the field and the theories of criminology. These courses explore crime, criminal behavior, and the law. It provides a fascinating look into the minds of criminals and begs the question: "Why do they do it?" Topics typically covered may include sociological and psychological motivations for crime, major criminology theories, patterns and behaviors, crime prevention, law enforcement, and criminal justice systems, among others. "Can you predict crime?"

## DRIVER EDUCATION

Driver Education
Course Number: Length/Credits 800853

Open to sophomores for the fall semester and the oldest freshmen for the spring semester. Course Fee: $\quad \$ 75.00$
Drivers' Education-Classroom and Laboratory course provides students with the knowledge and experience to become safe drivers on America's roadways. Topics in this course cover legal obligations and responsibility, rules of the road and traffic procedures, safe driving strategies and practices, and the physical and mental factors affecting the driver's capability (including alcohol and other drugs). Experience in driving a vehicle is an essential component of this course.

# FAMILY AND CONSUMER SCIENCE (FACS) 

## Life Skills 9/10

Course Number: 20000A
Length/Credits: One semester/ $1 / 2$ credit (Fall)
Prerequisite: None—Open to freshmen and sophomores
Course Fee: \$15
This course provides students with information about a wide range of subjects to assist them in becoming wise consumers and productive adults. These courses emphasize such topics as goalsetting, decision-making, communication, and setting priorities: money and time management relationships while providing students with the resources to make better choices in school, at work, and home.

## Life Skills 11/12

Course Number:
Length/Credits: One semester/ ½ credit (Fall)
State Course Code: 19257A000
Prerequisite: $\quad$ None-open to juniors and seniors
Course Fee: \$15
This course is designed to increase student knowledge and skills necessary for everyday living and in preparation for college or living independently. The course emphasizes goal-setting, decision making and problem solving, communication, healthy lifestyles and relationships, nutrition, personal safety, shopping, and budgeting. Household tasks and responsibilities will also be covered.

## Foods 1

Course Number: 200001
Length/Credits: One semester/ $1 / 2$ credit (Fall)
State Course Code: 19252A000
Prerequisite: None
Course Fee: \$20
Nutrition and Foods assists students in understanding the role of nutrition in health and wellness. Demonstrations, hands-on food labs, guided instruction and cooperative learning are used throughout the course. Ultimately, students will be given the opportunity to have the necessary skills to plan, purchase and prepare nourishing meals and to evaluate and improve their day-to-day food choices.

## Foods 2

Course Number: 200002
Length/Credits: One semester/ $1 / 2$ credit (Spring)
Prerequisite: $\quad$ Successful completion of Foods 1
Course Fee: \$20
This course is designed to focus on principles of food preparation, sports nutrition, consumerism, and career options in the food industry. The study and application of nutrition, sanitation, food sciences and technology in this course provides students with laboratory-based experiences that will strengthen their comprehension of concepts and standards outlined in Science, Technology, Engineering and Math (STEM) education. Knowledge about cuisine from international cultures will also be a focus. FCCLA may be an integral part of this course.

## Child Development

Course Number: 200011
Length/Credits: One semester/ $1 / 2$ credit
State Course Code: 19052A000
Prerequisite: Students in sophomore, junior, or senior status may take this course
This course provides an overview of the theory and principles of human growth and development from conception through adolescence. Content includes an in-depth study of the interrelatedness of physical, cognitive, social and emotional aspects of development. Development is studies in the context of family, gender, culture, language, ability, socioeconomics, diversity, and society. Special emphasis will be on the theories of Piaget, Vygotsky, Erikson, and Gardner. Students will explore opportunities in human services and education-related careers.

## FOREIGN LANGUAGE

## Spanish 1

Course Number: 500550
State Course Title: Spanish I
Length/Credits: Full year course/1 credit
State Course Code: 24052A000
Prerequisite: None
Designed to introduce students to Spanish language and culture, Spanish I courses emphasize basic grammar and syntax, simple vocabulary, and the spoken accent so that students can read, write, speak, and understand the language at a basic level within predictable areas of need, using customary courtesies and conventions. Spanish culture is introduced through the art, literature, customs, and history of Spanish-speaking people.

## Spanish 2

Course Number: 500551
Length/Credits: Full year course/1 credit
State Course Title: Spanish II

Prerequisite: Successful completion of Spanish 1
Spanish II courses build upon skills developed in Spanish I, extending students' ability to understand and express themselves in Spanish and increasing their vocabulary. Typically, students learn how to engage in discourse for informative or social purposes, write expressions or passages that show understanding of sentence construction and the rules of grammar, and comprehend the language when spoken slowly. Students usually explore the customs, history, and art forms of Spanish-speaking people to deepen their understanding of the culture(s).

## Spanish 3/4

Course Number: 500554
Length/Credits: Full year course/1 credit
State Course Title: Spanish III/Spanish IV

Prerequisite: Successful completion of Spanish 2 (With a grade of "C" or better)
Spanish III courses focus on having students express increasingly complex concepts both verbally and in writing while showing some spontaneity. Comprehension goals for students may include attaining more facility and faster understanding when listening to the language spoken at normal rates, being able to paraphrase or summarize written passages, and conversing easily within limited situations.

Spanish IV courses focus on advancing students' skills and abilities to read, write, speak, and understand the Spanish language so that they can maintain simple conversations with sufficient vocabulary and an acceptable accent, have sufficient comprehension to understand speech spoken at a normal pace, read uncomplicated but authentic prose, and write narratives that indicate a good understanding of grammar and a strong vocabulary.

## INDUSTRIAL TECHNOLOGY

Introduction to Building Trades and Engineering
Course Number: 300101
State Course Title: Introduction to Technology and Engineering (Industrial)
Length/Credits: Full year course/ 1 credit
State Course Code: 21052A002
Prerequisite: None
Course Fee: $\quad \$ 20.00$
Introduction to Building Trades is comprised of the following areas: Production, Transportation, Communication, Energy Utilization and Engineering Design, but is not limited to these areas only. This course will cover the resources, technical processes, industrial applications, technological impact and occupations encompassed by that system.

## Basic Woodworking

Course Number: 300201
Length/Credits: Fall semester/ ½ credit
State Course Title: Cabinetmaking
State Course Code: 17007A003
Prerequisite: Successful completion of Introduction to Building Trades with a "C" or better.
Course Fee: $\quad \$ 20.00$
Woodworking courses introduce students to the various kinds of woods used in industry and offer experience in using selected woodworking tools. Students design and construct one or more projects and may prepare a bill of materials. Correct and safe use of tools and equipment is emphasized. As students advance, they focus on learning the terminology necessary to use power tools successfully, developing skills to safely use these tools in the workshop and becoming familiar with various kinds of wood-finishing materials. Advanced students typically design a project, prepare bills of materials, construct, and finish proposed projects.

This course introduces students to the basic design and fabrication of residential cabinetry and custom furniture. The course also exposes students to the millwork and millwright industry. Instruction includes safety practices in using hand tools and power equipment.

## Basic Welding

Course Number: 300301
Length/Credits: Fall semester/ $1 / 2$ credit
State Course Title: Welding Technology I
State Course Code: 13207A001
Prerequisite: Successful completion of Introduction of Building Trades with a "C" or better.
Course Fee: $\quad \$ 20.00$
This course assists students in gaining the knowledge and developing the basic skills needed to be successful in welding technology. Units of instruction include arc, TIG and MIG welding, metallurgy, cutting metal using arc, plasma, and oxy-gas. In addition, students learn the basics of blueprint reading, precision measuring, layout, and production process planning. Students will have the option to earn Highland Community College credit through successful completion of this class.

## Advanced Welding and Metal Fabrication

Course Number: 300302
Length/Credits: Spring semester/ $1 / 2$ credit
Prerequisite: Open to juniors and seniors who have successfully completed Basic Welding
Course Fee: $\quad \$ 20.00$
This course builds on the skills and concepts introduced in Welding Technology I and provides more in-depth skill development in various types of welding including horizontal, vertical, overhead, and circular techniques. Students also explore the use of robotic and automated production welding. Students will have the option to earn Highland Community College credit through successful completion of this class.

## Internal Combustion Engines

Course Number: 300401
Length/Credits: One semester/ $1 / 2$ credit
State Course Title: Small Engine Repair I
Prerequisite: Successful completion of Introduction of Building Trades with a " C " or better.
Course Fee: $\$ 20.00$
Small engine repair is an instructional program that prepares individuals to troubleshoot, service, and repair a variety of small internalcombustion engines, involving both two and four cycle engines used on portable power equipment. Planned activities will allow students to become knowledgeable of fundamental principles and technical skills related to troubleshooting, repairing, identifying parts and making precision measurements. Safety will be a key component of this class. Students will also be exposed to career opportunities related to small engines.

## Basic Home Technology

Course Number: 300501
Length/Credits: One semester/ $1 / 2$ credit
State Course Title: Building Maintenance I
State Course Code: 17009A001
Prerequisite: Successful completion of Introduction of Building Trades with a "C" or better.
Course Fee: $\quad \$ 20.00$
This course includes learning experiences and skills in servicing building systems, repair and maintenance of machinery, maintaining plumbing systems, minor electrical repairs, essential heating ventilation and air conditioning system maintenance, painting, and basic carpentry. These experiences provide students the opportunity to become knowledgeable in a variety of practices and skills associated with all trades necessary to maintain a building's daily operations that are repair-related. The Building Maintenance I course provides instruction and hands-on activities including the use of test equipment and tools, hand tools, basic electricity, carpentry and masonry skills.

## Industrial Technology Co-op/Apprenticeship

Course Number: 300601
Length/Credits: One semester/ ½ credit (Spring)
State Course Title: Manufacturing-Workplace Experience
State Course Code: 13998A000
Prerequisite: Successful completion of Introduction to Building Trades and Engineering plus a minimum of two more IT courses.
This course will provide students with work experience in fields involving manufacturing or construction, supported by classroom instructors. Goals are set cooperatively by the student, teacher and employer (students may or may not be paid for this course). These courses may include classroom activities as well, involving further study of the field or discussion regarding experiences that students encounter in the workplace.
***All Industrial Technology students will need to supply safety glasses that comply with the Z87 code.
Course Number: $500512 \quad$ State Course Title: English/Language Arts I (9th grade)
Length/Credits: Full year course/1 credit State Course Code: 01001A000

Prerequisite: None
English 9 courses build upon students' prior knowledge of grammar, vocabulary, word usage, and the mechanics of writing and usually include the four aspects of language use: reading, writing, speaking, and listening. Typically, these courses introduce and define various genres of literature, with writing exercises often linked to reading selections.

English 9 is both an introduction to literary forms, such as the short story, nonfiction, drama, novels, and poetry, and a concentrated effort to develop good grammatical and communication skills. Each unit of study will include work with vocabulary, sentence structure, and paragraph development as well as an emphasis on critical thinking and creativity. In addition, students will be expected to write narrative, descriptive, expository, and reflective essays as well as to write creatively.

## English 9 Concepts

Course Number: $500511 \quad$ State Course Title: English/Language Arts I (9th grade)
Length/Credits: Full year course/1 credit State Course Code: 01001A000
Prerequisite: Placement by teacher recommendation only
English 9 Concepts is a highly individualized course for those students who do not take English 9 or English 9 Honors. Students will work to improve basic skills in reading comprehension, grammar, vocabulary, communication, and writing. *This course will be a combination of students from grades 9 and 10 who qualify for the concepts level courses. This course will next be offered in 2024-25.

## English 9 Honors

Course Number: 500513
Length/Credits: Full year course/1 credit
Prerequisite: Placement by standardized test scores and teacher recommendation
English 9 Honors is an accelerated and more challenging version of English 9, designed to develop higher-level thinking and writing skills. Students will be expected to read and analyze increasingly sophisticated and thought-provoking short stories, nonfiction, drama, novels, and poetry. In addition, students will be expected to write more in-depth narrative, descriptive, expository, and reflective essays as well as to write creatively. * This course will be a combination of students from grades 9 and 10 who qualify for the honors level courses. This course will be offered every other year with the next offering in 2025-26.

## English 10

Course Number: 500522
Length/Credits: Full year course/1 credit
State Course Title: English/Language Arts II ( $10^{\text {th }}$ grade)
State Course Code: 01002A000

## Prerequisite: None

English 10 courses usually offer a balanced focus on composition and literature. Typically, students learn about the alternate aims and audiences of written compositions by writing persuasive, critical, and creative multi-paragraph essays and compositions. Through the study of various genres of literature, students can improve their reading rate and comprehension and develop the skills to determine the author's intent and theme and to recognize the techniques used by the author to deliver his or her message.

English 10 is a study of both literature and communication skills. The course requires work in literature, grammar, language usage, sentence structure, composition, the use of reference materials, and vocabulary development through a variety of texts and media. In addition, students will be expected to write comparison/contrast, persuasive, expository, and reflective essays as well as to write creatively. Beginning with English 10, every student will complete a Term Paper, which will require students to demonstrate writing competency, as well as researching, keyboarding, and the composing of different media presentations. Each succeeding year will become more intensive and require more student competency in these areas.

## English 10 Concepts

Course Number: 500521
Length/Credits: Full year course/1 credit
State Course Title: English/Language Arts II ( $10^{\text {th }}$ grade)
State Course Code: 01002A000
Prerequisite: Placement by teacher recommendation only
English 10 Concepts is a highly individualized course for those students who do not take English 10 or English 10 Honors. Students will work to improve basic skills in reading comprehension, grammar, vocabulary, communication, and writing. * This course will be a combination of students from grades 9 and 10 who qualify for the concepts level courses. This course will be offered every other year with the next cycle in 2025-26.

## English 10 Honors

Course Number: 500523
State Course Title: English/Language Arts II (10 ${ }^{\text {th }}$ grade)
Length/Credits: Full year course/1 credit
State Course Code: 01002A000
Prerequisite: Placement by standardized test scores and teacher recommendation
English 10 Honors is an accelerated and more challenging version of English 10, designed to develop higher-level thinking and writing skills. Students will be expected to read and analyze increasingly sophisticated and thought-provoking short stories, nonfiction, drama, novels, and poetry. In addition, students will be expected to write more in-depth comparison/contrast, persuasive, expository, and reflective essays as well as to write creatively. * This course will be a combination of students from grades 9 and 10 who qualify for the honors level courses. This course will next be offered in 2024-25.

## English 11

Course Number: 500532
Length/Credits: Full year course/1 credit
State Course Title: English/Language Arts III (11 ${ }^{\text {th }}$ grade)
State Course Code: 01003A000
Prerequisite: None
English 11 courses continue to develop students' writing skills, emphasizing clear, logical writing patterns, word choice, and usage, as students write essays and begin to learn the techniques of writing research papers. Students continue to read works of literature, which often form the backbone of the writing assignments. Literary conventions and stylistic devices may receive greater emphasis than in previous courses.

English 11 chronologically traces the development of American literature from the Colonial period to the $21^{\text {st }}$ century. The course includes vocabulary study, a research paper, reflective and creative writing, and a focus on persuasive and analytical writing,

## English 11 Concepts

Course Number: 500531 State Course Title: English/Language Arts III (11 th grade)
Length/Credits: Full year course/1 credit
State Course Code: 01003A000
Prerequisite: Placement by teacher recommendation only
English 11 Concepts is a highly individualized course for those students who do not take English 11 or English 11 Honors. Students will work to improve basic skills in reading comprehension, grammar, vocabulary, communication, and writing. * This course will be a combination of students from grades 11 and 12 who qualify for the concepts level courses. This course will be offered every other year with the next cycle in 2025-26

## English 11 Honors

Course Number: 500533
State Course Title: English/Language Arts III (11 ${ }^{\text {th }}$ grade)
Length/Credits: Full year course/1 credit
State Course Code: 01003A000
Prerequisite: Placement by standardized test scores and teacher recommendation
English 11 Honors is an accelerated and more challenging version of English 11, designed to develop higher-level thinking and writing skills. The course includes advanced vocabulary study, a research paper, more in-depth reflective and creative writing, and an extensive focus on persuasive and analytical writing. * This course will be a combination of students from grades 11 and 12 who qualify for the honors level courses. This course will be offered every other year with the next cycle in 2025-26.

## AP Literature and Composition

Course Number: 500544
Length/Credits: Full Year course/1 credit
Prerequisite: Students must earn at least "B's" in their respective English course and have instructor approval
AP Literature and Composition is a college-level reading and writing course which will prepare students to take the AP Literature and Composition test in May. By achieving a successful score on the AP Literature and Composition Exam, students may receive credit and/or advanced placement coursework in college. Students may earn college credit, depending on the results of the examination and the individual college/university they will be attending.

AP Literature and Composition engages students in the careful reading and critical analysis of imaginative literature. Through the close reading of selected texts, students deepen their understanding of the ways writers use language to provide both meaning and pleasure for the readers. As they read, students consider a work's structure, style and themes as well as such smaller-scale elements as the use of figurative language, imagery, symbolism, and tone. The course provides students with the skills in analytical reading and expository writing necessary to prepare them for college-level reading and writing. Summer reading and writing will be required of students who enroll in AP Literature and Composition.

Prospective students should clearly understand the rigorous nature of the AP Literature and Composition course before signing up. This course is offered in alternating years, with the next offering in 2024-25.

Speech
Course Number: 500534
Length/Credits: One semester/ $1 / 2$ credit
State Course Title: Public Speaking
Prerequisite: Open to juniors
Public Speaking courses enable students, through practice, to develop communication skills that can be used in a variety of speaking situations (such as small and large group discussions, delivery of lectures or speeches in front of audiences, and so on). Course topics may include (but are not limited to) research and organization, writing for verbal delivery, stylistic choices, visual and presentation skills, analysis and critique, and development of self-confidence. Students will deliver informative, demonstration and persuasive speeches, as well as a Ted Talk. Students will be exposed to topics that cover Media Literacy in this course. They will be required to analyze, evaluate, create and communicate in a variety of forms which include, but are not limited to: print, visual, audio, interactive, and digital texts.

## English 12

Course Number: $500542 \quad$ State Course Title: English/Language Arts IV (12 ${ }^{\text {th }}$ grade)
Length/Credits: Full year course/1 credit State Course Code: 01004A000
Prerequisite: None
English 12 courses blend composition and literature into a cohesive whole as students write critical and comparative analyses of selected literature, continuing to develop their language arts skills. Typically, students primarily write multi-paragraph essays, but they may also write one or more major research papers.

This course thematically explores British and world literature from early civilizations through the $21^{\text {st }}$ century.. The course includes vocabulary study, a research paper, reflective and creative writing, as well as a focus on character analysis, persuasive writing, and communication skills needed for post-high school study and work.

## English 12 Concepts

Course Number: $500541 \quad$ State Course Title: English/Language Arts IV (12 ${ }^{\text {th }}$ grade)
Length/Credits: Full year course/1 credit State Course Code: 01004A000
Prerequisite: Placement by teacher recommendation only
English 12 Concepts is a highly individualized course for those students who do not take English 12 or English 12 Honors. Students will work to improve basic skills in reading comprehension, grammar, vocabulary, communication, and writing. * This course will be a combination of students from grades 11 and 12 who qualify for the concepts level courses. This course will next be offered in 2024-25.

## Creative Writing

Course Number: State Course Title: Creative Writing
Length/Credits: One semester/ $1 / 2$ credit State Course Code: 01104A001
Prerequisite: Successful completion of freshman and sophomore English classes and Junior or Senior standing
This course will introduce students to a variety of creative writing genres including short stories, poems, plays and creative nonfiction. Through traditional instruction and a writer's workshop approach, students will learn about the writing process, read a variety of published works, generate a great deal of their own writing, share their writing with peers and bring writing pieces to publication. This course is available only to juniors and seniors who have successfully completed freshman and sophomore English classes.

## Novels

Course Number: State Course Title: Literature
Length/Credits: One semester/ $1 / 2$ credit State Course Code: 01053A001
Prerequisite: Successful completion of freshman and sophomore English classes and Junior or Senior standing
This course will introduce students to a variety of contemporary and/or canonical novels. Students will read, summarize, analyze, and discuss course material, with an emphasis on theme and how literature reflects, interprets, and affects real life. This course is available only to juniors and seniors who have successfully completed freshman and sophomore English classes.

## MATHEMATICS

A chart to show the sequence of Math courses. Students will follow the line across from left to right-not up and down.

| Freshman | Sophomore | Junior | Senior |
| :--- | :--- | :--- | :--- |
| Algebra A | Algebra B | Geometry Concepts | Discrete Math |
| Algebra A | Algebra 1 | Geometry | Algebra II |
|  |  |  |  |
| Algebra 1 | Geometry Concepts | Discrete Math | Algebra II |
| Algebra 1 | Geometry | Discrete Math | Algebra II |
| Algebra 1 | Geometry | Algebra II | Pre-Calculus |
|  |  |  |  |
| Geometry | Discrete Math | Algebra II | Pre-Calculus |
| Geometry | Algebra II | Pre-Calculus | AP Calculus AB |

## Algebra A

Course Number: 400413 State Course Title: Pre-Algebra
Length/Credits: Full year course/1 credit State Course Code: 02051A000
Prerequisite: None
Pre-Algebra courses increase students' foundational math skills and prepare them for Algebra I by covering a variety of topics, such as properties of rational numbers (i.e., number theory), ratio, proportion, estimation, exponents and radicals, the rectangular coordinate system, sets and logic, formulas, and solving first-degree equations and inequalities.

## Algebra 1

#### Abstract

Course Number: 400411 State Course Title: Algebra I Length/Credits: Full year course/1 credit State Course Code: 02052A000 Prerequisite: Open to freshmen or students who have successfully completed either Pre-Algebra or Algebra 1 Concepts Algebra I courses include the study of properties and operations of the real number system; evaluating rational algebraic expressions; solving and graphing first degree equations and inequalities; translating word problems into equations; operations with and factoring of polynomials; and solving simple quadratic equations.

## Algebra B

Course Number: 400412 State Course Title: Algebra I Length/Credits: Full year course/1 credit State Course Code: 02052A000 Prerequisite: Successful completion of Algebra A This course will give a solid foundation in the fundamentals of algebra. Students will develop their problem solving skills as they learn new math concepts. Linear equations, quadratic functions, the quadratic formula, modeling equations and inequalities, slope, and factoring will be studied. This course is open to Pre-Algebra students to satisfy the algebra requirement.

## Geometry

Course Number: 400422
Length/Credits: Full year course/1 credit State Course Code: 02072A000
Prerequisite: $\quad$ Successful completion of Algebra 1 or Algebra 1 Concepts (with instructor approval)
Geometry courses, emphasizing an abstract, formal approach to the study of geometry, typically include topics such as properties of plane and solid figures; deductive methods of reasoning and use of logic; geometry as an axiomatic system including the study of postulates, theorems, and formal proofs; concepts of congruence, similarity, parallelism, perpendicularity, and proportion; and rules of angle measurement in triangles.

## Geometry Concepts

Course Number: 400423
State Course Title: Geometry
Length/Credits: Full year course/1 credit State Course Code: 02072A000
Prerequisite: $\quad$ Successful completion of Algebra 1 Concepts or Algebra 1 (with instructor approval)
In Geometry Concepts, students will study how points, lines, and planes can be used to picture the space around us. The main attention will be placed on plane geometry. Plane geometry studies geometric figures in a plane, like squares, triangles, and circles. Later, we will consider solid geometry, where students will learn about solid figures like cubes, prisms, and spheres.

## Algebra 2

Length/Credits: Full year course/1 credit
State Course Code: 02056A000
Prerequisite: Successful completion of Geometry, Geometry Concepts (with instructor approval) or Discrete Math
Material(s): TI-84 Plus graphing calculators are required for this course and must be purchased by the student
Algebra 2 course topics typically include field properties and theorems; set theory; operations with rational and irrational expressions; factoring of rational expressions; in-depth study of linear equations and inequalities; quadratic equations; solving systems of linear and quadratic equations; graphing of constant, linear, and quadratic equations; properties of higher degree equations; and operations with rational and irrational exponents.

## Discrete Math

Course Number: 400430
Length/Credits: Full year course/1 credit
State Course Title: Discrete Mathematics State Course Code: 02102A000
Prerequisite: Successful completion of Geometry Concepts or Geometry
Discrete Mathematics courses include the study of topics such as number theory, discrete probability, set theory, symbolic logic, Boolean algebra, combinatorics, recursion, basic algebraic structures and graph theory

## Pre-Calculus

Course Number: 400441 State Course Title: Pre-Calculus
Length/Credits: Full year course/1 credit State Course Code: 02110A000
Prerequisite: $\quad$ Successful completion of Algebra 2
Material(s): $\quad$ TI-84 Plus graphing calculators are required for this course and must be purchased by the student
Pre-Calculus courses combine the study of Trigonometry, Elementary Functions, Analytic Geometry, and Math Analysis topics as preparation for calculus. Topics typically include the study of complex numbers; polynomial, logarithmic, exponential, rational, right trigonometric, and circular functions, and their relations, inverses and graphs; trigonometric identities and equations; solutions of right and oblique triangles; vectors; the polar coordinate system; conic sections; Boolean algebra and symbolic logic; mathematical induction; matrix algebra; sequences and series; and limits and continuity.

## AP Calculus AB

Course Number: 400120
Length/Credits: Full year course/1 credit
State Course Title: AP Calculus AB
State Course Code: 02124A000
Prerequisite: Successful completion of Pre-Calculus
Material(s): TI-84 Plus graphing calculators are required for this course and must be purchased by the student
Following the College Board's suggested curriculum designed to parallel college-level calculus courses, AP Calculus AB provides students with an intuitive understanding of the concepts of calculus and experience with its methods and applications. These courses introduce calculus and include the following topics: elementary functions; properties of functions and their graphs; limits and continuity; differential calculus (including definition of the derivative, derivative formulas, theorems about derivatives, geometric applications, optimization problems, and rate-of-change problems); and integral calculus (including antiderivatives and the definite integral).

Prospective students should clearly understand the rigorous nature of the AP Calculus AB course before beginning this course.

## Math Concepts

Course Number:
400501
State Course Title: General Math
Length/Credits: Full year course/1 credit State Course Code: 02002A000
Prerequisite: Students with a math goal in the Individualized Education Program (IEP) may be placed in this class
General Math courses reinforce and expand students' foundational math skills, such as arithmetic operations using rational numbers; area, perimeter, and volume of geometric figures, congruence and similarity, angle relationships, the Pythagorean theorem, the rectangular coordinate system, sets and logic, ratio and proportion, estimation, formulas, solving and graphing simple equations and inequalities.

Band
Course Number: 800851
Length/Credits: Full year course/1 credit
Prerequisite: None
Course Fee: $\quad \$ 10.00$
General Band courses develop students' technique for playing brass, woodwind, and percussion instruments and cover a variety of nonspecified band literature styles (concert, marching, orchestral, and modern styles).

Students will participate in pep band, marching band and concert band performances. In addition, students will have individual opportunities to participate in optional events like Solo and Ensemble Contest and IMEA Music Festival. Attending all full band performances outside of the school day is a course requirement.

## Chorus

Course Number: 800852 State Course Title: Chorus
Length/Credits: Full year course/1 credit State Course Code: 05110A000

## Prerequisite: None

Chorus courses provide the opportunity to sing a variety of choral literature styles for men's and/or women's voices and are designed to develop vocal techniques and the ability to sing parts.

Students do not need previous choral experience to join. This class is co-curricular, meaning it meets during the regular school day and has 2-4 required evening or weekend performances each semester. Students will learn a variety of music, including spirituals, sacred, calypso, secular, contemporary, classical, western, and folk songs. Students will learn music terminology and skills including sightreading. In addition, students will have individual opportunities to participate in optional events such as Solo and Ensemble Contest and IMEA Music Festival. The class also offers the National Anthem Club and provides students opportunities to sing the Star Spangled Banner at sporting events.

## PHYSICAL EDUCATION

## Physical Education 9

Course Number: 800009
Length/Credits: $\quad 1 / 2$ credit per semester
State Course Title: Physical Education
State Course Code: 08001A001
Prerequisite: Open to freshmen
Physical education courses provide students with knowledge, experience, and an opportunity to develop skills in more than one of the following sports or activities: team sports, individual/dual sports, recreation sports, and fitness/conditioning activities.

This basic instructional program promotes health, hygiene, social skills, and physical exercise. These instructional goals will be met by developing a reasonable degree of skill in a variety of activities that are directed more for leisure-time enjoyment, both now and in the future. There will be an introduction to modern exercise such as yoga and Pilates. Written and skills tests will also be used to evaluate performance. CPR certification will be administered. Classes are conducted on a co-educational basis.

## Physical Education 10

Course Number: 800010
Length/Credits: $\quad 1 / 2$ credit per semester
State Course Title: Physical Education

Prerequisite: Open to sophomores
Physical education courses provide students with knowledge, experience, and an opportunity to develop skills in more than one of the following sports or activities: team sports, individual/dual sports, recreation sports, and fitness/conditioning activities.

This instructional program promotes health, hygiene, social skills, and physical exercise. These instructional goals will be met by developing a reasonable degree of skill in a variety of activities that are directed more for leisure-time enjoyment, both now and in the future. Classes will be fitness-based with emphasis on lifetime fitness skills. Written and skills tests will also be used to evaluate performance. Classes are conducted on a co-educational basis.

## Physical Education 11-12

Course Number: 801112
Length/Credits: $\quad 1 / 2$ credit per semester
State Course Title: Physical Education

Prerequisite: Open to juniors and seniors
Physical education courses provide students with knowledge, experience, and an opportunity to develop skills in more than one of the following sports or activities: team sports, individual/dual sports, recreation sports, and fitness/conditioning activities.

This instructional program promotes health, hygiene, social skills, and physical exercise. These instructional goals will be met by developing a reasonable degree of skill in a variety of activities that are directed more for leisure-time enjoyment, both now and in the future. Classes will be fitness-based with emphasis on lifetime fitness skills. Written and skills tests will also be used to evaluate performance. Classes are conducted on a co-educational basis.

## Introduction to Fitness

Course Number: 811112
Length/Credits: Semester Course/1/2 credit (Offered Both Semesters)
State Course Title: Fitness/Conditioning Activities

Prerequisite: Open to Freshmen and Sophomores-also Juniors and Seniors with Instructor Approval.
This instructional program will provide strength and conditioning activities that emphasize and develop muscular strength, flexibility, and cardiovascular fitness, utilizing the weight room on a daily basis. A personal fitness plan will be developed for each individual to adapt to their goals and body type.

## Lifting/Injury Prevention

Course Number: 811114 ( $1^{\text {st }}$ Semester) 811115 (2 ${ }^{\text {nd }}$ Semester) State Course Title: Weight Training Length/Credits: Semester Course-1/2 credit (Offered Both Semesters) State Course Code: 08009A000
Prerequisite: Open to Sophomores, Juniors, and Seniors. Intended for Students who are involved in Extra-Curricular activities Freshmen may be considered with Instructor Approval.

Lifting is a course which will engage our student-athletes in a lifting program that will incorporate in-season as well as out-of-season lifting and conditioning for each individual. Injury prevention and recovery are also components of this course. The teachers will individualize each student's workout according to the sport/activity(ies) they are involved in.

## SCIENCE

## Physical Science

Course Number: 600612
Length/Credits: Full year course/1 credit
Prerequisite: None
Physical Science courses involve study of the structures and states of matter. Typically (but not always) offered as introductory survey courses, they may include such topics as forms of energy, wave phenomenon, electromagnetism, and physical and chemical interactions.

This course will stress the development and use of critical-thinking and problem-solving skills. Also emphasized will be the social aspect of working with others in a collaborative setting during lab experiences.

## Physical Science Concepts

Course Number: 600614
Length/Credits: Full year course/1 credit
State Course Title: Physical Science State Course Code: 03159A000
Prerequisite: Placement by teacher recommendation only
Physical Science courses involve study of the structures and states of matter. Typically (but not always) offered as introductory survey courses, they may include such topics as forms of energy, wave phenomenon, electromagnetism, and physical and chemical interactions.

This course will stress the development and use of critical-thinking and problem-solving skills. Also emphasized will be the social aspect of working with others in a collaborative setting during lab experiences.

## Health

Course Number: 600611
Length/Credits: One semester/ $1 / 2$ credit
Prerequisite: None
Topics covered within this Health course may vary widely, but typically include nutrition, mental health and stress management, depression, teen suicide, nicotine, drug and alcohol abuse and prevention, consumer health issues, and reproductive health. The course may also include brief studies of the leading health indicators, personal development, and/or community resources. Riverview provides services that give students specific information on Mental Health resources in the Tri-State area to the students through a speaker that comes in. Riverview also presents and provides students with information about resources and curriculum regarding sexual abuse.

## Prerequisite: Open to sophomores

Course Fee: $\$ 10.00$
Biology courses are designed to provide information regarding the fundamental concepts of life, life processes, and the relationships between living things. This course includes, but is not restricted to, ecology, cell biology, genetics, and evolution. The students will also survey the different classifications of life forms with an emphasis on the ecological and evolutionary relationships between different species. The students will use laboratory experiments, models, charts, data, and technology to comprehend the concepts presented. This course is required for graduation for those students not placed in Honors Biology.

## Biology Honors

Course Number
Length/Credits: Full year course/1 credit
State Course Title: Biology
Prerequisite: Placement by teacher recommendation only
Course Fee: $\quad \$ 10.00$
Biology courses are designed to provide information regarding the fundamental concepts of life, life processes, and the relationships between living things. This course includes, but is not restricted to, ecology, cell biology, genetics, and evolution. The students will also survey the different classifications of life forms with an emphasis on the ecological and evolutionary relationships between different species. The students will use laboratory experiments, models, charts, data, and technology to comprehend the concepts presented. This course will go into greater depth than general Biology.

## Physics

Course Number: 600631 State Course Title: Physics
Length/Credits: Full year course/1 credit
State Course Code: 03151A000
Prerequisite: Students must have passed Algebra 1 (Grade of " C " or better)
Course Fee: $\quad \$ 10.00$
Physics courses involve the study of the forces and laws of nature affecting matter, such as equilibrium, motion, momentum, and the relationships between matter and energy. The study of physics includes examination of sound, light, and magnetic and electric phenomena. This course is offered every other year, alternating with Chemistry. The next year this course will be offered is the 202425 school year.

## Chemistry

Course Number: 600632
State Course Title: Chemistry
Length/Credits: Full year course/1 credit State Course Code: 03101A000
Prerequisite: Students must have passed Algebra 1 (Grade of " C " or better)
Course Fee: $\quad \$ 10.00$
Chemistry courses involve studying the composition, properties, and reactions of substances. These courses typically explore such concepts as the behaviors of solids, liquids, and gases; acid/base and oxidation/reduction reactions; and atomic structure. Chemical formulas and equations and nuclear reactions are also studied. This course is offered every other year, alternating with Physics. The next year this course will be offered is the 2023-24 school year.

## Physiology

Course Number: 600642 State Course Title: Physiology
Length/Credits: Full year course/1 credit State Course Code: 03055A000
Prerequisite: Successful completion of Biology
Course Fee: $\quad \$ 10.00$
Physiology courses examine all major systems, tissues, and muscle groups in the human body to help students understand how these systems interact and their role in maintaining homeostasis. These courses may also cover such topics as cell structure and function, metabolism, and the human life cycle.

## Environmental Science

Course Number:
Length/Credits: One semester/ $1 / 2$ credit
State Course Title: Science, Technology and Society

Prerequisite: Open to juniors and seniors
Environmental Science courses examine the mutual relationships between organisms and their environment. In studying the interrelationships among plants, animals, and humans, these courses usually cover the following subjects: photosynthesis, recycling and regeneration, ecosystems, population and growth studies, pollution, and conservation of natural resources.

Length/Credits: One semester/ $1 / 2$ credit (Fall)
Prerequisite: Open to Juniors and Seniors (Sophomores with administrative approval)
This course will expose students to the variety of opportunities available within the healthcare industry (e.g.; nursing, therapy, vision and dental care, administrative services, and lab technology), and will include classroom and community-based activities. The main purpose of this course is to assist students in further development of their self-concept and in matching personal abilities and interest to a tentative career choice. The course content will provide in-depth information into health occupations careers and trends, the occupational and educational opportunities, and the educational, physical, emotional, and attitudinal requirements.

## Medical Terminologies

Course Number: 201002
Length/Credits: One semester/ $1 / 2$ credit (Spring)
Prerequisite: Successful completion of Introduction to Health Occupations
This course will teach students how to identify medical terms by analyzing their components. This course emphasizes defining medical prefixes, root words, suffixes, and abbreviations. The primary focus is on developing both oral and written skills in the language used to communicate within health care professions. This course is a dual credit offering in conjunction with Highland Community College.

## SOCIAL STUDIES

## World History

Course Number: 700722
Length/Credits: Full year course/1 credit
Prerequisite: None
World History—Overview course that provides students with coverage of the history of human society from the Renaissance to the contemporary period, examining political, economic, social, religious, military, scientific, and cultural developments. World History may include geographical studies, but are taught within the historical units. World History is a one-year required course for sophomores except those enrolled in World History Concepts.

## World History Concepts

Course Number: 700721
Length/Credits: Full year course/1 credit
State Course Title: World History-Overview State Course Code: 04051A000
Prerequisite: Placement by teacher recommendation only
World History Concepts is a course designed to familiarize students with essential geographic, historical, and cultural facts including the study of atrocities during the Holocaust. It is required of sophomores and juniors who qualify through teacher placement and who are not enrolled in World History.

## United States History

Course Number: 700731
Length/Credits: Full year course/1 credit
State Course Title: U.S. History-Comprehensive

Prerequisite: None
U.S. History-This is an overview course from Reconstruction to present day examining the growing industrial world, the U.S. growth into a world superpower, segregation and civil rights, the modern economy, and terrorism. U.S. History courses may include geographical studies, but are taught within historical units. Specific units are taught within the year that cover Women, Black History, and Asian Americans and their contributions and issues they have faced in the past. U.S. History is a one-year required course for juniors except those enrolled in U.S. History Concepts.

## United States History Concepts

Course Number: 700730
Length/Credits: Full year course/1 credit
State Course Title: U.S. History-Comprehensive
State Course Code: 04101A000
Prerequisite: None
U.S. History-This is a course designed to familiarize students with basic historical concepts of U.S. History from Reconstruction through the present day. U.S. History Concepts courses may include geographical studies, but are taught within historical units. Specific units are taught within the year that cover Women, Black History, and Asian Americans and their contributions and issues they have faced in the past U.S. History Concepts is required of sophomores and juniors who qualify through teacher placement and are not enrolled in U.S. History.

Course Number: 700741
Length/Credits: One semester/ $1 / 2$ credit
Prerequisite: Open to seniors
U.S. Government-Comprehensive courses provide an overview of the structure and functions of the U.S. government and political institutions and examine constitutional principles, the concepts of rights and responsibilities, the role of political parties and interest groups, and the importance of civic participation in the democratic process. These courses may examine the structure and function of state and local governments and may cover certain economic and legal topics.

## AP Psychology

Course Number: 700742
Length/Credits: Full Year/1 credit
State Course Title: AP Psychology
State Course Code: 04256A000
Prerequisite: Open to juniors and seniors (with Social Studies teacher's approval)
AP Psychology offers an introduction to psychology and prepares students to take the AP Psychology Examination, which is administered in May. By achieving a successful score on the AP Psychology Exam, students may receive credit and/or advanced placement course work in college. Students may earn college credit, depending on the results of the examination and the individual college/university they will be attending.

The AP Psychology course is designed to introduce students to the systematic and scientific study of the behavior and mental processes of human beings and other animals. Students are exposed to the psychological facts, principles, and phenomena associated with the major sub-fields within psychology. The AP Psychology course stresses critical thinking, reading, and writing within the context of scientific methodology and questioning.

Prospective students should clearly understand the rigorous nature of the AP Psychology course before signing up. This course will be offered in alternating years, with the next offering in 2025-26.

## AP European History

State Course Title: AP European History
Course Number: 700744
State Course Code: 04056A00
Length/Credits: Full Year/1 credit
Prerequisite: $\quad$ Open to $10^{\text {th }}, 11^{\text {th }}$ and $12^{\text {th }}$ with Teacher/Administrative Approval
AP European History focuses on developing students' understanding of European history from approximately 1450 to present. The course has students investigate the content of European history for significant events, individuals, developments, and processes in four historical periods, and develop and use the same thinking skills and methods (analyzing primary and secondary sources, making historical comparisons, chronological reasoning, and argumentation) employed by historians when they study the past. The course also provides five themes (interaction of Europe and the world, poverty and prosperity, objective knowledge and subjective visions, states and other institutions of power, and individual and society) that students explore throughout the course in order to make connections among historical developments in different times and places.

Prospective students should clearly understand the rigorous nature of the AP European History course before signing up. AP European History will replace World History for the students who choose to take it. Students may earn college credit depending on AP test scores and college requirements. Summer reading may be required. This class will be reading and writing intensive. This course will be offered in alternating years, with the first offering in 2025-26.

## AP United States History

Course Number: 700745
Length/Credits: Full Year/1 credit
Prerequisite: $\quad$ Open to $10^{\text {th }}, 11^{\text {th }}$ and $12^{\text {th }}$ with Teacher/Administrative Approval
AP U.S. History focuses on developing students' understanding of American history from approximately 1491 to the present. The course has students investigate the content of U.S. history for significant events, individuals, developments, and processes in nine historical periods, and develop and use the same thinking skills and methods (analyzing primary and secondary sources, making historical comparisons, chronological reasoning, and argumentation) employed by historians when they study the past. The course also provides seven themes (American and national identity; migration and settlement; politics and power; work, exchange, and technology; American in the world; geography and the environment; and culture and society) that students explore throughout the course in order to make connections among historical developments in different times and places.

Prospective students should clearly understand the rigorous nature of the AP United States History course before signing up. This class will replace U.S. History for students who choose to take it. Students may earn college credit depending on AP test score and college requirements. Summer reading may be required. The class will be reading and writing intensive. This course will be offered in alternating years, with the first offering in 2024-25.

## Prerequisite: Open to juniors and seniors

Course Fee: $\quad \$ 15.00$
Contemporary U.S. Issues courses study the political, economic, and social issues facing the United States, with or without an emphasis on state and local issues. These courses may focus on current issues or may examine selected issues that span throughout the 20th century to the present.

The course will cover the current events at home and abroad and how they affect all of us. Also included would be lessons on how to accurately interpret the news we are given through television, radio, Internet, and print. Due to the nature of its content, this course can be repeated.

## GRADUATION SERVICE

Graduation service is a graduation requirement for all students. Students must accumulate a total of forty hours of service throughout their four years of high school.

Graduation service hours must be completed before the start of semester exams of the senior year. Graduation service must be done outside of school time. Students cannot be paid for any service performed, nor will services for family members count towards hours for graduation service. The purpose and intent of graduation service is to get into the community and to give of one's time and talents to others. Approval forms are available in the office and on the high school link of the district's website (www.edbahs.org) and should be submitted to the principal's office within three months of completing the service.

## Possible Graduation Service Organizations:

Lion's Club, Warrior Booster Club, Optimist Club, Boys Scouts, Girls Scouts, Library, City Township - Park or local governments, churches, American Legion, V.F.W., East Dubuque Tourism/Business Council, hospitals, and nursing homes.

## REQUIREMENTS FOR PUBLIC UNIVERSITIES

For admission to public universities, the law requires students to complete at least 15 units of high school course work distributed as follows:

- Four years of English (emphasizing written and oral communication and literature)
- Three years of Social Studies (emphasizing history and government)
- Three years of Mathematics (introductory through advanced Algebra, Geometry, Trigonometry or fundamentals of computer programming)
- Three years of Science (Laboratory sciences)
- Two years of electives chosen from music, art, foreign language (which shall be deemed to include up to one year of American Sign Language per PA 86-0623) or vocational education. University of Illinois/Urbana may have slightly different requirements. Public universities in other states may also have different requirements.
